

HOT HOUSE

A 60 minute theatrical piece exploring duty, trust and identity through a speculative fiction setting. Research and Development performances with The Garage (Norwich), The Bedford (Balham) and Crossrail Place Roof Garden (Canary Wharf).

“Cabbages. Cabbages... Cabbages. Cabbages. Green. Grow. Still. Sow. Stagnant. Fragrant. Feelers. Creeping across soft skin. Bring face to the sun. Heat lamps. Sun. Feet still in the soil when skin’s in the sky.”

Dystopian crisis rages outside a garden of Eden greenhouse. The girl grown there to save the world yearns for anything else. Guilt, repression and sense of self are explored in this hot-housed coming of age, experimental drama.
